## uhlsport of GERMANY

**uhlsport** goalkeeper gloves are worn proudly by renowned goalkeepers all over the world. Based on a vast range of patents and innovations the **uhlsport** portfolio contains a huge variety of foams and cuts. Team sports equipment is the second focus of the brand. With a broad collection of apparel like jerseys, track-suits and training gear **uhlsport** fulfills the needs of all clubs reaching from the European top leagues down to the grass roots at amateur

level. The goal of uhlsport is a distinct and consistent design throughout all products.

**technology driven** | **uhlsport** sees itself as a football brand made in the 21st century for the 21st century

**independent and self sustainable** | **uhlsport** is a performance-oriented brand  
**social responsibility** | The brand **uhlsport** must be close and accessible for everyone.

## uhlsport

The brand identifies itself with the modern Germany of today. This means that we oblige ourselves in a miscellaneous manner. To achieve a high performance standard for all our products at any time is our goal, to claim responsibility and initiative regarding social and ecologic guidelines is our duty. This effects the respect and a responsible handling of our brand image. We are German. Maybe not typically German. But German with good grace.

## #01 SUPERGRIP

High-Grip Performance. Supergrip. A new type of adhesive foam technology with high-grip-elements. Benefit: ultra-strong grip and optimal durability in the adhesive foam.

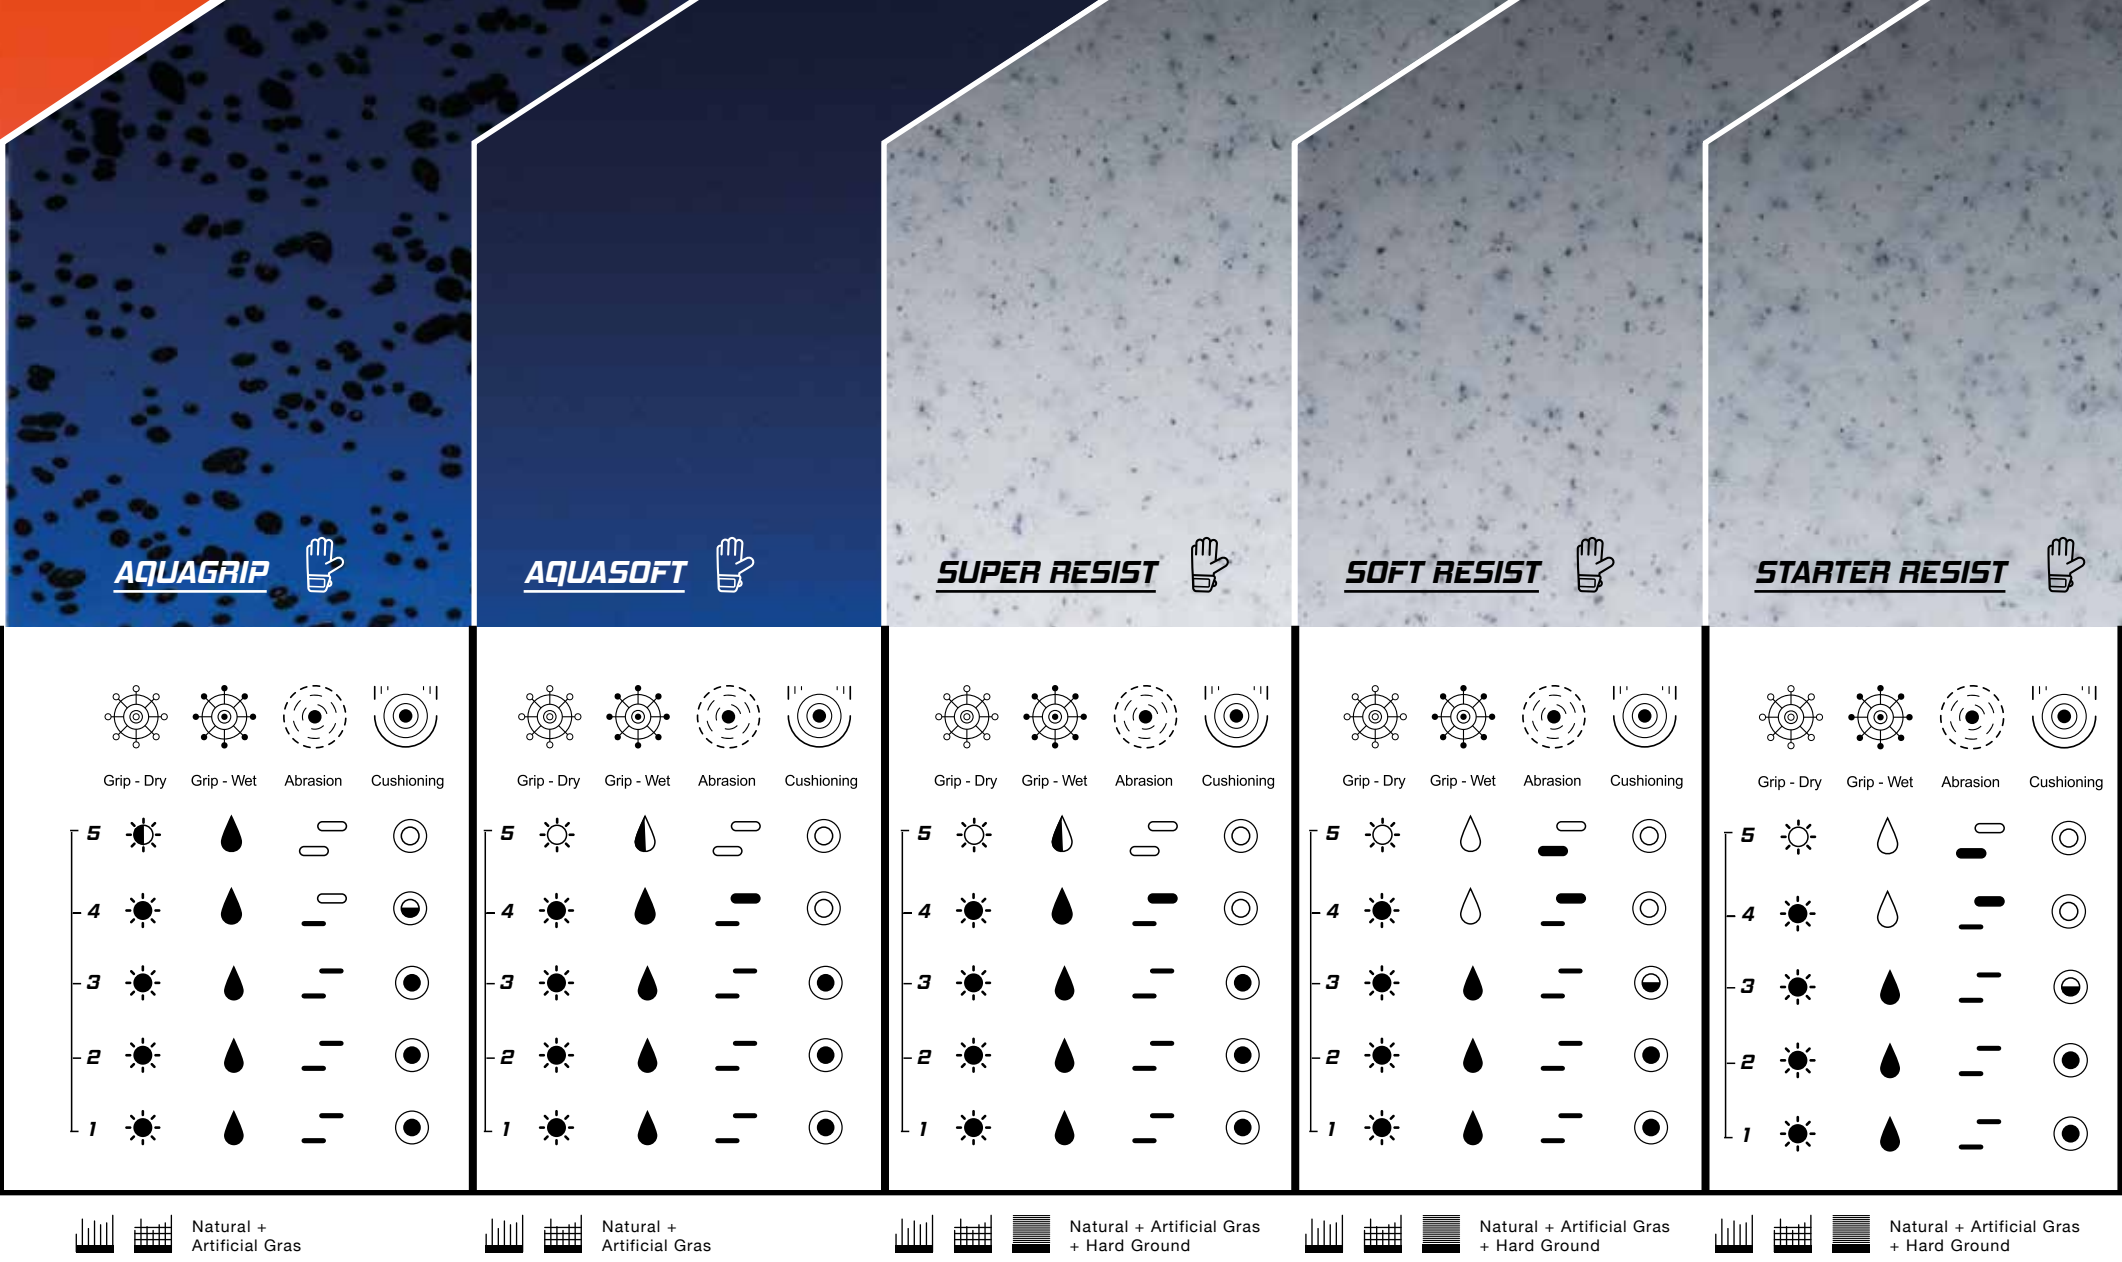

## #02 ABSOLUTGRIP

Our patented foam is at its best in dry weather but will not let you down when things get wet.

## #03 SOFT

Our soft foams which all have the same thing: The balance between grip and abrasion resistance. The voluminous and softer, the better the grip and greater the abrasion. The more compact, the longer it will last. Only you know your personal balance. Try them. Decide between: SUPERSOFT<sup>+</sup>, SOFT or STARTERSOFT.

### #04 AQUASOFT

Aquasoft foam patented by uhlsport. Thanks to special aqua additive, particularly good grip properties under wet weather conditions. All Aquasoft gloves from uhlsport are designed in an unique, bright colour: Aquasoft-Blue!

### #05 RESIST

A new latex generation with RES particles for artificial grass and hard floors. Optimized foam qualities make it particularly abrasion proof. Surface of the palm with abrasion proof graphite particles. Quality level: + 3 mm SuperResist (soft/smooth surface) / + 3 mm SoftResist (soft/smooth surface) / + StarterResist (lightly-textured surface)

# CUT-177 TECHNOLOGY

## REFLEX CUT

Innovative inner seam construction ensures a tight fit and maximum ball control.

## FINGERSURROUND CUT

Combination of inner seam and ergonomic external design provides a tight fit and maximum grip.

**NEW  
INNOVATIVE  
CUT**

### **HALF NEGATIVE CUT**

Inner seam construction ensures a tight fit and maximum ball control.

### **ROLLFINGER CUT**

Ergonomic exterior seam design provides for seamless complete grip. Benefit: 100% grip.

### **CLASSIC CUT**

Exterior seam design maximizes the inner hand surface. Sure handedness increases with the contact surface on the ball.

# FRAME- TECHNOLOGY

BIONIKFRAME

## BIONIKFRAME

### The light, flexible support.

The Bionikframe. Inspired by nature – the greatest system ever – the Bionikframe is based on a design, which precisely imitates and supports the function of our natural ligaments. The result: Stable. Flexible. Light. For all those who claim protection is nothing for them.

BIONIKFRAME  
PLUS

## BIONIKFRAME+

### Bionikframe+ with Thumbframe.

The thumb plays a truly important role in your hand. It is the strongest finger. Gripping and throwing are its best disciplines. Its carpometacarpal joint gives a great amount of freedom to this gripping finger. Of course it also needs to be protected. However stabilization while maintaining freedom of movement is not very simple. Nonetheless. We have done it and can reliably protect your thumb. BIONIKFRAME+ with THUMBFRAME.

## SUPPORTFRAME

### SUPPORTFRAME

#### The classic.

The **SUPPORTFRAME** provides optimal stabilization even in the basic and children's models. The hinge-like finger structure offers the best protection while ergonomically supporting the hand.

## SUPPORTFRAME PLUS

### SUPPORTFRAME+

#### Supportframe+ Technology.

The patented finger and thumb stabilization system supports the catch movement. The hand is relieved by the anatomical preforming and light-weight construction. Due to the integrated backhand plate an optimal shock absorption and force distribution is possible.

### **FEATURE 03** **3D SCHOCKZONE**

Optimized punching effect thanks to integrated high rebound foam.

### **FEATURE 02** **REFLEX CUT**

Innovative cut guarantees a high level of comfort, touch and ball control.

### **FEATURE 01** **360° GRIP**

New developed surround grip for maximized catching area and optimized grip at all ball contact zones.

### **FEATURE 04** **EASY ENTRY SYSTEM**

Special elastic material provides an easy entry into the glove.

### **FEATURE 05** **SUPERGRIP**

Innovative foam provides a higher grip level thanks integrated „high-grip elements“.

### **FEATURE 06** **STIMULATE INSIDE**

Innovative stimulation effect, thanks special silicon dots. Anatomic adjusted silicon dots stimulate the tissue. Advantage: improved blood circulation and oxygen supply for advanced performance skills.
